

RAJAPANDU M

Java Developer | Spring Boot | REST APIs

Hyderabad, Telangana, India rajapandu.m@gmail.com

PROFESSIONAL SUMMARY

Java Backend Developer with hands-on experience building RESTful applications using Java, Spring Boot, Spring Security, JPA/Hibernate, PostgreSQL, Kafka, and Maven, complemented by 1 year 9 months of professional Quality Assurance experience at Premier Energies. Experienced in JWT security, layered architecture, API validation, database persistence, defect analysis, root-cause analysis, and cross-functional problem solving.

TECHNICAL SKILLS

Languages: Java, SQL

Backend & Frameworks: Spring Boot, Spring MVC, Spring Security, Spring Data JPA, Hibernate, RESTful Web Services

Architecture & Messaging: Microservices Architecture, Event-Driven Systems, Apache Kafka, Layered Architecture

Databases: PostgreSQL, Firebase Realtime Database

Testing & QA: Selenium WebDriver, Playwright, Appium, TestNG, Postman, API Testing, Functional Testing, Regression Testing, Smoke Testing

Tools: Git, GitHub, Maven, IntelliJ IDEA, Jira, Apache POI, Allure

Frontend / Mobile: React.js, HTML, CSS, Android (Java), RecyclerView, Firebase Authentication

PROFESSIONAL EXPERIENCE

Graduate Engineer Trainee – Quality Assurance

August 2024 – April 2026

Premier Energies · Hyderabad

- Validated Manufacturing Execution System (MES) production data by comparing product quantities recorded at individual manufacturing stations with the actual number of products manufactured.
- Identified and documented mismatches between MES-recorded and physical production quantities and supported investigation and resolution of discrepancies.
- Performed defect identification, quality checks, documentation, and root-cause analysis to support corrective actions and consistent manufacturing quality.
- Collaborated with production and cross-functional teams to resolve quality issues and maintain process and documentation compliance.

PROJECTS

E-Commerce Backend Application

Java · Spring Boot · PostgreSQL

- Product, order and user-management backend workflows with REST API architecture.
- Controller-Service-Repository layered architecture with JWT authentication and authorization for protected API access.
- Spring Data JPA/Hibernate persistence on PostgreSQL, request validation, centralized exception handling, and Apache Kafka event-driven communication; Maven for dependency/build management.

CampusConnect — Android Student App

Java · Android · Firebase

- Android application with Firebase Authentication, Firebase Realtime Database, Firebase Storage and Firebase Cloud Messaging.
- RecyclerView-based interfaces with real-time data synchronization for campus and social workflows.

Web Test Automation Framework

Java · Selenium · TestNG

- Selenium WebDriver automation with TestNG execution, Maven project management and Excel-driven test data using Apache POI.

- Functional and regression test automation with reusable automation components.

PUBLICATION

Android-Based Online Application for Students Information System

IJRASET

Published research on an Android student information system using Java/Firebase for storing, retrieving and updating student information.

EDUCATION

Bachelor of Technology (B.Tech), Electronics and Communication Engineering

2019 – 2023

Vignana Bharathi Institute of Technology

CERTIFICATIONS

- Full Stack Testing — Frontlines EduTech Private Limited (2026)
- Java (Basic) — HackerRank (2024)
- AI-ML Virtual Internship — AICTE / EduSkills, supported by AWS Academy (2022)
- Android App Development — Internshala Trainings (2021)
- Cybersecurity Virtual Internship — AICTE / EduSkills, Palo Alto Networks Cybersecurity Academy (2021)
- Introduction to Cybersecurity, Fundamentals of Network Security, Fundamentals of Cloud Security — Palo Alto Networks (2021)
